

# Pop-Up JR4

QUICK, EASY & EFFICIENT

## TOW & GO!

Engineered for efficiency of transport, ease of deployment, and simplicity of use, OMJC JR4 portable signals can be easily transported and deployed. The controller allows for 2, 3 or 4 phase operations and is so simple to adjust, any of your work-zone team members can do it! The signal heads are standard 12" RYG LED's. When fully deployed, each JR reaches a height of 12' for max visibility. In their travel position, the JR's retract to a compact 6' to reduce wind resistance when towed. JR4 was specifically designed to be the simplest solution for fully automated single lane closures. However, there are many other applications for the JR4 to quickly and temporarily assist in managing traffic volume.

ENGINEERED FOR EFFICIENCY

# Pop-Up JR - Hook & Go System

QUICK, EASY & EFFICIENT

## Pop-Up JR - Hook & Go • STANDARD FEATURES

### DEPLOYMENT

Manual winch

### SIGNAL HEAD CONFIGURATIONS

1 - 12" 3 Section (Solid red, yellow, green)

### TRAFFIC CONTROL EQUIPMENT

Proprietary OMJC Controller, encrypted wireless connection

### CHARGING SOURCE

DC | MPPT Solar Charge Controller

AC | 120V plug-in charger

## Pop-Up JR - Hook & Go • SPECIFICATIONS

### TRAVEL SIZE

75" L x 44.5 W x 90" H

### DEPLOYED SIZE

75" L x 44.5" W x 150" H

### STANDARD WEIGHT

<600 lbs.

### BATTERIES

110 Ah of AGM batteries, no-spill, no-maintenance

### SOLAR

1-60 watt solar panel
