

# 25' HORIZONTAL MAST

## 25' MAST ARM

### FULLY CUSTOMIZABLE MAST ARM SOLUTION

The OMJC 25' Overhead Horizontal Mast Arm Trailer is a versatile and reliable solution for various traffic management needs. While the trailer was designed as a portable traffic signal, its functionality extends far beyond that application alone. The 25' trailer from OMJC can also be effectively utilized as a portable Hawk system, or serve as a mounting platform for other ITS equipment. Thanks to its ample solar power and battery capacity, it can efficiently power a wide range of devices, ensuring uninterrupted functionality in many situations. The OMJC Signals 25' Overhead Horizontal Mast Arm Trailer is a flexible and robust solution that offers convenience and adaptability for diverse traffic control requirements.
